Report from Mark K - I've attended every Tuesday with an NA member who has shared. We've had two regular inmates turned up and one who got shipped out for his drug debts. I've just been turning up, giving our ID and being let in so I've stopped phoning first to give our names. This makes it easier as I had a last minute change when Steve L couldn't make it. Tonight I'm going with Ricky H.

One inmate said he's planning on being settled in Sussex upon his release so I've said I'll give him my phone number if he does for sure. He's served 22 years in prison. He's 18 month's clean. The other bloke will soon be a year clean. Our Clear Message is being carried. Thanks for allowing me to be of Service. 🙏💎

The Lighthouse

Aaron am giving service at the Lighthouse this evening.

Meeting running well, good attendance, regular shares of experience, strength, and hope. As Brian mentioned no white or orange key rings, I have just been running on virtual hugs claps and lots of noise. Hi. Am away at the moment.

Brian - Lighthouse has continued to be a grateful and involved presence with an average 8-12 attendance. A pleasure to facilitate. Only issues are: having no idea when we might likely be allowed back in person : and they still haven't ordered new Orange and White key rings despite being regularly reminded!! Have a good one tonight.
